Does Premium Tech Support Improve Retention?

Insight : Unlimited Data shows little effect.

OVERALL TAKEAWAY

Customers using Month-to-Month contracts, Fiber Optic internet, and Mailed Check payments are at the highest risk of churn. Promoting long-term contracts and value-added protection services offers the greatest opportunity to improve customer retention.

Recommended Actions

- **Convert to Annual Contract**
Offer discounts to move customers to annual contracts.
- **Improve Fiber Optic Experience**
Enhance service quality and address customer concerns.
- **Encourage Digital Payments**
Shift Mailed Check users to AutoPay or Credit Card.
- **Bundle Retention Services**
Bundle Online Security, Tech Support & Device Protection.
- **Target High-Risk Customers**
Identify high-risk customers Early and launch retention campaigns.
- **Personalize Customer Engagement**
Deliver targeted offers based on customer behavior and service usage.
- **Monitor Retention Performance**
Track churn trends and campaign effectiveness using key KPIs.
